

Legal firms
worldwide
benefit from
Softlink solutions

Hear from our legal customers...

Softlink

Liberty

Softlink works closely with industry knowledge and information professionals globally to understand the strategic direction and changing environments of knowledge management in law firms.

illumina

Our product development commitment ensures we provide the latest technologies and functionality to help legal firms achieve more in terms of efficiencies, cost savings, user engagement and client value.

Cloud Hosting, SaaS or Local Installation options are available.

Administration tasks are much quicker with Liberty, in particular the daily checking-in process and monitoring missing issues. It is also much easier to keep track of what you have done in terms of claiming missing issues, previous orders, current orders etc. which is good from a business continuity perspective.

Jill Henderson, Knowledge Management Systems Analyst
Irwin Mitchell Solicitors

We have been using Liberty for 10 years and find the customer support really helpful. Responses are timely and efficient and it's great that Softlink targets the specific needs of its customers

Ani Dragomirova, Catalog & Library Services Specialist
Mayer Brown LLP

softlinkint.com

With Liberty we were able to correlate those who used the system and those who didn't with their achievement within the firm. It's a powerful HR tool as well.

Leanne Cummings, past ALLA President,

**Past Knowledge Manager
Norton Rose**

It's kept our reference requests organized, the assignment feature is great and I love uploading documents to keep them all together in one place.

**Sarah Bennett, Immediate Past Director of
Library Services
Sullivan & Worcester**

We looked at Liberty and assessed the value it would provide to our firm. We have a huge amount of information that is now accessible by everyone because of Liberty.

**Helen Gambley, Library Manager
HopgoodGanim**

Liberty met our immediate information needs and I felt confident that it would grow with us as the use of technology increased. Also, the ability to have Liberty hosted meant that it would be continually updated and the firm's IT Manager did not have the worry of upgrading our server.

**Lorraine Pearce, Information Resource
Manager
Kott Gunning Lawyers**

From the lawyers point of view I think the most beneficial feature is the quick and easy access to our main legal databases as this is what most of our lawyers use the library for.

**Jill Henderson, Knowledge Management Systems Analyst
Irwin Mitchell Solicitors**

I really like the Lists feature and use it to compile lists of resources by topic and have them available in Search. I have also posted links to these Lists on our Intranet site and really like that it has the option to add an image.

**Ani Dragomirova, Catalog & Library Services
Specialist
Mayer Brown LLP**
